Don't Become a Statistic!

Submitted by Allison Weaver

Statistics tell us that the number of new gym memberships skyrocket in January and plummet by the end of March. The same holds true for some who go it alone and start a brand new regimen with their family, friends, or private trainers/classes…..do NOT become a statistic!! You can do this – you can keep it going! Restart, take a different tact, try a new food, start getting outside again and be rejuvenated when the sun comes out – whatever it takes. It is never over when you make a mistake, fall off the horse, eat a pan of brownies, or otherwise bring to a halt your journey toward a full, vital, healthy lifestyle. It is also never too late to begin again.

Re-check your fitness routine. Is it realistic? What is your schedule really like? Do you need to get yourself to bed 15 mins earlier so you can wake up earlier to get a jump start on your day? 15 minutes of stretching, jumping jacks, pushups, and crunches will do wonders to start those endorphins rushing and really begin your day with a bang! How about lunch? Can you eat a salad at work and go for a walk after? How about the stairs? Are they accessible? Ask your "pod buddy" if they want to see how many more flights you can climb in one week.

After Work: Play softball with the kids in the yard. Throw a few sprints in between pitches. Pitch/hit 3 times – 5 sprints….great together time, practice time and great cardio!

Split training such as this is proven to be at least as effective as, if not more so for some, than a straight hour or two of non-stop training.

Re-check your goals: Are they attainable? How much time have you allowed for planning your groceries, lunches, family dinners? How about your work out routine? Is it written down? Is your routine in bite-sized pieces (pun intended!) or is it more broad spectrum? Remember to be specific in your goals. If your goal is to add 2 minutes to your run tomorrow; that's great! It's a specific goal, time measured, and attainable. But don't stop there…..once you reach that one, set a higher goal, larger than the last, loftier each time. Before you know it – you're hiking in the Rockies!!! It really is doable. You really can do this!!

Are you bored with what you're doing? Shake things up a bit; get some roller blades, a bike (with a helmet), find a fitness class that can be your "night out" with friends. You'll be surprised at how much fun you really can have in the name of exercise!

Are you bored with what you're eating? Salad does not have to be your main course everyday. How about some grilled chicken with mango salsa? Try adding chipotle sauce to a dish (like broccoli)– incredible roasted, smoky flavor with a great kick! No time for fish? There are great frozen Salmon and Tilapia filets, add a little lemon pepper sprinkle, maybe even a light Italian dressing, keep it going with steamed asparagus, and Voila! A beautiful, healthy, and tasty almost instant meal. We are aesthetic creatures, so "eating the rainbow" will add pleasure to the eyes as it adds nutrition to the body. Incorporating red bell peppers, yellow bell peppers, maybe some portabella mushrooms to brighten up and change a dish in color, flavor and texture. Just a spray of Olive oil in a pan and a few minutes on the stove, and you're in business. Remember: Always keep your food as "close to the tree" as possible. That means eat it as God made it; not after it's been processed. This will keep you healthy for life. If you have to wonder – it's probably processed!

You do not have to re-invent the wheel – just keep healthy cookbooks handy, save your favorite fitness websites on your "bookmark" tab, so with a quick turn of the page, or click of the mouse you will add new dimensions to your personal and fitness and nutrition! You can do this – yes you can!!!

Alternatives to Microsoft Office

Submitted by Laurie Scott

Anyone who works in an office and with a computer probably has Microsoft Office installed on it. Word, PowerPoint and Excel and found in almost every corporate environment. But when it comes time to buy software for your home computer, most people don't realize there are free and low-cost alternative.

To start, Microsoft does offer an Office 2007 "Home and Student" edition that I've seen online for as low at $80. This edition includes Word, PowerPoint, Excel and OneNote, but not Outlook, which is what many Office users expect with their "office" suite.

The most popular free option is probably Sun's Open Office 3 (available at www.openoffice.org) It has powerful word processing, presentation and spreadsheet programs that are compatible with Microsoft Office, and also includes a graphics program and database (but again, no e-mail program.)

Another free alternative is a surprising name from the past. Lotus (owned by IBM) has resurrected its Symphony suite and is closer to Open Office that Microsoft Office. Its programs are IBM Lotus Symphony Documents, IBM Lotus Symphony Presentations and IBM Lotus Symphony Spreadsheets and also offer Microsoft Office compatibility.

Google has recently entered the office application fray with their own product (which are still in "beta" – a Google trademark), Google Docs. It offers Microsoft Office compatibility for Word and Excel with a twist, everything is stored online. You can access and share your files with anyone from anywhere. Some consider this the future, known as "cloud computing" (the internet is the cloud in computer network diagrams.)

Corel offers an $89 alternative that is compatible with Office Word, PowerPoint and Excel, but includes VideoStudio LE for editing your home videos, and MediaOne SE for enhancing and organizing your photos.

At the time of this writing, the most popular (non-Microsoft) email client, Eudora is undergoing a rewrite but the older versions are still available at www.eudora.com. If you're already using hotmail, yahoo mail, Gmail, or your Internet Service Provider's (ISP) web-based mail, then you don't need an e-mail client to run on your computer anyway.

So don't automatically feel like you have to fork out a couple hundred dollars just to have Office functionality at home. There are affordable and even FREE alternatives out there for you.

Happy Computing!

Ever Imagined a Shopping Spree Where the Clothes are Free?

Submitted by: Jane Seaman

At present we are all looking for ways to cut back on expenses, so what if I told you there's a place where you can shop with no need for a credit card, a check book, or cash and that this wonderful place is right on your doorstep, literally.

As an Image Consultant when a client says they "have nothing to wear" the first thing I do is take them shopping in their closet, because within lies a multitude of opportunities. Consider what is actually in your closet; clothes that you liked when you purchased them, clothes from the past that remind you of a particular time or event and possibly some clothes that were gifted. But so many items are never worn. Why? When my clients have an opportunity to consider this, their response is often the same; the closet is so full they forget what they have, they are bored with their clothes, some items no longer fit, some items are out of style, or they have nothing to match it with. Does this sound familiar?

Think again! Your closet can become your personal boutique, all you have to do to shop there is allocate some time. If possible include a family member or friend to help and encourage you. Then open up your closet and go shopping. Take out each clothing item and really, really look at it. If it doesn't fit, could it be made to fit? There are an abundance of excellent tailors in Houston. Look at the item differently, let's say it was a long paisley dress, could it now be shortened and worn over leggings for a more modern look? Could you remove the sleeves, add a belt? Often styles have changed with Jackets and the ones in your closet may now be too long, or have those wonderful 'Dallas' shoulder pads. Yes, they are still lurking in closets everywhere! Could the shoulder pads be removed and the jacket shortened? Sometimes it's simply a case of changing the buttons. Imagine that navy jacket with new bright red buttons, a red tee and denim jeans, it might just work.

The key to successful closet shopping is to have fun and think outside of the box; try that cocktail dress on then add a denim jacket and a simple pair of sandals for a more dressed-down look. Add bright accessories to a tee and a pair of slacks for a more dressed-up look. Try colors together you would never have dreamed of matching, you'll be wonderfully surprised. Forget those old rules of Black and Brown should not be worn together, yes, they can. Consider 'color blocking'; put together an outfit entirely in one color, right down to the shoes, this will minimize horizontal lines on the body and is guaranteed to make us look taller and slimmer. Now add bright accessories to give the outfit a wow factor. Forget the rules and be creative. The chances are, at minimum, you'll find six to ten new outfits in YOUR closet.

When returning your clothes to the closet hang them in groups; put all your jackets together and then the same for trousers, blouses, skirts, dresses. For your tops try hanging them in order of sleeve length. Hang your suites as separate pieces so you can visually see that they can be worn with other items other than just as a suit.

And at the end of your closet shopping you may have found some items that have to go. Take a look at these items closely and ask has the item been worn much, is it somewhat in style? If so, then make sure they are cleaned and pressed and take them along to one of the many Consignment. You might just earn some extra cash. If you feel the item is not up to being sold then a charity will make good use of it? And finally, in six months time go through the whole process again and reinvent some new outfits from your personal boutique….what fun!
